Live This Down

Truth Before Treason

What have we done?
The hatred rises as we fail to recognize the tyranny
Another fallacy eludes the eyes of this civilization yet again
How could you tear this nation down just to satisfy your cynical morals?
I hope you realize you're done
The time is now, it's time to take a stand and fight

You'll never be a god - you won't live this down
You rise to power as a demon as you corrupt humanity

(Chorus) And if we want to believe the lies that they declare (they de-clare)
We'll be a nation of foolish souls, woah
If we don't realize the fact that they disgrace our domain
Then our nation will surely fall - our nation will surely fall

Open your eyes - can't you see what they are doing to us all?
This isn't right - we must face this hardship and drive it to the fucking ground

They'll never be our god - they won't live this down
They use our fear to control us as they corrupt humanity

(Chorus)

And soon the ominous dark will blanket all of the Earth
The time for action is now - before times get any worse
If we don't realize the fact that they disgrace our domain
We'll be a nation of foolish souls - a nation of foolish souls
