

Would You...?

Touch and Go

Um

I've noticed you're around

I find you very attractive

I've noticed you're around

Um

I find you very attractive

I find you very attractive

Um

Would you go to bed with me?

I've noticed you're around

Um

I find you very attractive

Would you

Um

I've noticed you're around

I find you very attractive

Would you

Um

Um

Would you go to bed with me?

I've noticed you're around

I find you very attractive

I've noticed you're around

Um
