[Music & Lyrics by S. Guadagnoli]All we need to feel it's

Just like the others

So, I'm over you, I don't feel you, I can't see you

When I was down the way

I'm callin' you, I don't feel you, I can't see you

When I was looking for

Something inside gonna makes me strong never change my way

See, what goes around

All we need to feel it's

Just like the othersJust feel free

Something inside taking over my hard times, when I step outside

Now, what comes around
