

# Regenerate

## We Came As Romans

Regenerate, regenerate this life  
Regenerate, regenerate  
We've returned to reclaim On this unstable ground we're laying faces down  
In a world that's sinking  
Our faith is put in the stars, not in each other's hearts  
In this world that's sinking Stop living for yourself  
You're just living in your own hell To bring this back to a proper course  
We will band together (stand together)  
To bring this back to a place I know  
We will band together  
We will regroup (Hear the voice inside you  
Use the truth to guide you, now  
This is our time to restore the faith)  
Regenerate, we will be the change We're searching for a cure  
'Cause our world is drowning  
We're quick to guard our hearts  
Forget we share our scars  
In this world that's drowning Stop living for yourself  
You're just living in your own hell To bring this back to a proper course  
We will band together (stand together)  
To bring this back to a place I know  
We will band together  
We will regroup (Hear the voice inside you  
Use the truth to guide you, now  
This is our time to restore the faith)  
Regenerate, we will be the change Why condemn when you can confide?  
Why condemn when you can confide?  
You're all just too busy picking a side Why condemn when you can confide?  
Regenerate, we will change this life  
Why condemn when you can confide?  
Regenerate, regenerate this life To bring this back to a proper course  
We will band together (stand together)  
To bring this back to a place I know  
We will band together  
We will regroup (Hear the voice inside you  
Use the truth to guide you, now  
This is our time to restore the faith)  
Regenerate, we will be the change Regenerate, regenerate this life  
Regenerate, regenerate

We've returned to reclaim
