

# Irresponsible

## Splender

Well you've been pushing but I don't agree  
'Cause there was nothing ever here for me  
If you could see the circles in my eyes I tried  
Let's get this whole thing out I cannot be responsible, I don't care  
I cannot be responsible for you  
Do you know where you are? Oh, God I can't believe that I'm still here  
And it's purpose wasn't very clear  
I'm gonna take the time to wash away this day  
Let's get the whole thing out I cannot be responsible, I don't care  
I cannot be responsible for you  
Do you know where you are? With all I have and all you know  
Don't trust me 'cause I'll hurt you so  
As simple as a syllable  
Be tired of my kind Let's get this out I cannot be responsible, I don't care  
I cannot be responsible for you  
Do you know where you are? With all I have and all you know  
Don't trust me 'cause I'll hurt you so  
As simple as a syllable  
Be tired of my kind
