How Long

Electronic

Satisfy your every wish
I can be a part of this
You'll never forgive me
But what do I careI'd like to stay but it can't be
It's kind of juvenile of me
There's something I'm missing
Why can't we agreeI heard this sound for a thousand years
Such a sad song it goes forever on
I heard this sound for a thousand years
Such a sad song, it goes forever onI know I tried to change my mind
So much of you I can't define
Whenever you're near me
Whatever you doI fall apart if you're not there
I couldn't leave I wouldn't dare
You're always within me
Whatever you doI heard this sound for a thousand years
Such a sad song it goes forever on
I heard this sound for a thousand years
Such a sad song, it goes forever onI lied to you it was a sin
So please forgive me once again
I'll never betray you
As long as you're thereI heard this sound for a thousand years
Such a sad song it goes forever on
I heard this sound for a thousand years
Such a sad song, it goes forever on
