

Joyride (Omen)

[Chevelle](#)

[Verse 1]

Well, I've heard about the joyrides and I want in
It's fair to say it's in the past, if you're kidding
And you're kidding, and you're kidding
Like a God of an omen
Your kiss stabs like some voodoo hex
Well, like a servant one double crossed
This is it, this is it[Chorus 1]

Late night, this heart needs pumping
Joyride, oh, the famous lies[Verse 2]
Which body's gonna be taking aim, none of these
Oh, write a note

Didn't like, didn't like, none of these
No regrets, had a Benz, catch it now, [?]
Chase you down[Chorus 2]

Late night, this heart needs something
Ride, joyride, oh, the famous lies[Bridge]
We almost always open up
We're almost always left bent over
Almost never opened up
Chased the wheels

Pig headed, your joyride[Chorus 1]
Late night, this heart needs pumping
Ride, joyride, oh, the famous lies
Ride, joyride, oh, the famous lies
