

# Far Away

Natalia Damini

Never say goodbye  
Please don't cry  
I have to go It's here and now  
The sun goes down in your soul Never say goodbye  
Please don't cry  
I'll return It's here and now  
The sun goes down in your soul I'm far away  
But I love you  
Feel my heart I'm really missing you  
I'm far away  
But I want you  
Give me a chance I wanna love you I'm far away  
But I know  
I still love you  
I cannot live without you But I know  
I still love you  
I cannot live without you Never say goodbye  
Please don't cry  
I have to go It's here and now  
The sun goes down in your soul Never say goodbye  
Please don't cry  
I'll return It's here and now  
The sun goes down in your soul I'm far away  
But I love you  
Feel my heart I'm really missing you  
I'm far away  
But I want you  
Give me a chance I wanna love you I'm far away  
But I know  
I still love you  
I cannot live without you But I know  
I still love you  
I cannot live without you See the lights  
Come lose your mind  
You make me feel, feel alive  
I'll make you feel, feel alive  
I'm talking here and now  
It's all undefined  
You make me feel, feel alive

I'll make you feel, feel alive I'm far away  
But I love you  
Feel my heart I'm really missing you  
I'm far away  
But I want you  
Give me a chance I wanna love you I'm far away  
But I love you  
Feel my heart I'm really missing you  
I'm far away  
But I want you  
Give me a chance I wanna love you I'm far away  
But I know  
I still love you  
I cannot live without you But I know  
I still love you  
I cannot live without you
