

# Real Love (feat. Bobby Brown)

[Macy Gray](#)

I feel so breathless  
All this running around  
Tender traitor  
With my cruel crown  
My cards are on the table  
I need Real love, Not some fabrication  
Real love, not just indication Tell me how you gone make me feel  
I took the rules down, put away the game  
Kinder distance, to the love we made  
And I m building up the fire I need  
I need  
I need Real love, not some fabrication  
Real love, not just indication
