Reno

Wayland

It's no Las Vegas no Atlantic City
The streets are dirty and the girls are cocaine pretty
Put it all on black when there's no place left to go
There's only one road in and one road out
One road in and one road out of Reno.

One road in, one road out
Gonna bury my sin in this desert town
Sand in pocket, come on and make it rain
Can't stay alive in this slow drain

It's no Las Vegas, no Atlantic City
The streets are dirty and the girls are cocaine pretty
Put it all on black when there's no place left to go
There's only one road in and one road out
One road in and one road out of Reno

I grew up hard, played it rough
Mama said boy enough's enough
Now I swear little sister, I'm coming back for you
Gonna do everything they told me not to do

It's no Las Vegas no Atlantic City
The streets are dirty and the girls are cocaine pretty
Put it all on black when there's no place left to go
There's only one road in and one road out
One road in and one road out of Reno.

Now I swear little sister...

It's no Las Vegas no Atlantic City
The streets are dirty and the girls are cocaine pretty
Put it all on black when there's no place left to go
There's only one road in and one road out
One road in and one road out,
One road in and one road out,
One road in and one road out of Reno.

No Las Vegas, no Atlantic City (one road out of Reno)
The streets are dirty and the girls are cocaine pretty (one road out of Reno)

Put it all on black when there's no place left to go (one road out of Reno)
There's only one road in and one road out
One road out of Reno
