

# Think About It

Will Young

So afraid of living out my life  
Taking time, oh, I've got to think about it  
I know what's mine is slipping through my hands  
I can't stand, no to have to think about it Maybe I'm aching for something, waiting for something  
Don't want to compromise  
Sometimes I think I don't need it, no, no You think I'm afraid but I want to be wanted  
Take some time, you gotta think about it  
Just a caricature of a lover  
Just, just, just think about it when you get in your car You say I'm afraid and you're making me beg  
So what you gonna do, you gotta think about it  
I can see what I need, guaranteed, after all this time  
So you gotta think about it Once again asking for permission  
I call you up, oh, I need to think about us  
You make me feel like a hungry little kid who thinks he's on a mission  
But this is real, oh, I need to think about it Maybe I'm asking for something, waiting for something  
Don't want to compromise  
Sometimes I think I don't need it, but now I've seen, yes You think I'm afraid but I want to be wanted  
Take some time, you gotta think about it  
Just a caricature of a lover  
Just, just, just think about it when you get in your car You say I'm afraid and you're making me beg  
So what you gonna do, you gotta think about it  
I can see what I need, guaranteed, after all this time Take time, make up your mind  
Always asking why, why, do I think about  
What I am, where I come from  
You don't realize that it's starting to pull me apart Take some time, make up your mind  
Always asking why, why do I think about  
What I am, where I come from  
You don't realize that it's starting to pull me apart You think I'm afraid but I want to be wanted  
Take some time  
Just a caricature of a lover  
Just, just, just think about it when you get in your car You say I'm afraid and you're making me beg  
So what you gonna do, you gotta think about it  
I can see what I need, guaranteed, after all this time Yes, you gotta think about it  
Yes, you gotta think about it, yeah  
Yes, you gotta think about it  
No, you gotta think about it Yes, you gotta think about it  
Yes, you gotta think about it  
Yes, you gotta think about it  
Yes, you gotta think about it, think about, think about it Yes, you gotta think about it

Yes, you gotta think about it  
Yes, you gotta think about it  
No, you gotta think about it Yes, you gotta think about it  
Yes, you gotta think about it  
Yes, you gotta think about it  
No, you gotta think about it, think about, think about it
