## Whirlwind

## **Dispatch**

A whirlwind came into my life and he tried to rescue me
Will you come, will you go, will you tell seriously
Twisting burning, my thoughts turning, back to you again
Sweet thing, take me to the endYou'd better dig and take a look inside yourselfSo the story goes, and so I've heard it said,

That you left your land, to trade for a place,
So far away, so out of date, that only you could understand
And at the ceiling of my feeling, backed up against the wall,
Sweet thing, you know I'd fall in lineYou'd better dig and take a look inside yourselfShe wants to be free

I want to know
She wants to be free
I want to know

yeahA whirlwind came into my life and he tried to rescue me will you come, will you go, will you tell seriouslyTwisting burning, my thoughts turning, back to you again Sweet thing, take me to the endShe wants to be free

I want to know
She wants to be free
I want to know
yeah
