

Right Side of the Road

[Ringo Starr](#)

Be what you're doing
Stop what you do
The only one you're fooling
Isn't me it's you
Didn't I try to tell you?
You carry in a much too heavy note
You're on the right side of the wrong side of the road
Aiming for disaster
Something's got to change
You're only moving faster
Almost out of range
It isn't about direction
Until you got no place left to go
No, no, no
You're on the right side of the wrong side of the road
Somebody already told me
What I'm telling you
I won't ask anybody who knows me
I believe you can do it too
Tell me are you open
To be turned around?
You never really too lost to be found
Maybe choose another direction
You got so many ways to go
Try on the right side on the right side of the road
Try on the right side on the right side of the road
