# The Drive Thru

## Jake Miller

Hi, welcome to the drive thru, can I help you?
Yeah, uh, can I get a, uh hold up, ight lemme get
3 sports cars, a big mansion
With A club downstairs I can dance in
Hold the bouncer just let all of my fans in
A limousine big enough that i can fit my benz in
Did you get that? Excuse me?
Small, medium or large jacuzzi?
Add a few girls in just to amuse me
Wait hold on sir, you're starting to confuse me
A butler, a chef, and a couple of maids
A helicopter, a yatch, and a couple of planes
2 or 3 fur coats and some diamond chains
Oh and make me a worldwide household name
Make my mom proud put me on tv
Make me and my whole crew VIP
Yeah, I think thats all i need
Okay sir pull up to the next window please
Welcome to the drive thru
Welcome to the drive thru
We got what you need
All you gotta do is ride through
This the jam you can vibe to
When you go and take a ride thru the drive thru
Welcome to the drive thru
Welcome to the drive thru
We got what you need
All you gotta do is ride through
This the jam you can vibe to
When you go and take a ride thru the drive thru
Welcome to the drive thru
Welcome to the drive thru
Come and take a ride thru
Watcha want? You know that I gotchu
Wait hold up I'm not done just yet
Secret service and a private jet
A couple body guards and i think im all set
No wait, theres a couple more things lemme get
A movie threatre with downstairs mall

Platinum records hangin on my wall
A full court outside where I can play ball
And a hot secretary that'll take my calls
Throw a few bucks in my bank account
Gimme so much money that I cant keep count
Blow a few grand everytime that im out

Condos on both coasts and one down south
Make me a star selling out every venue
Listen, sir, I would really recommend you
Slow it down cause your gettin outta hand
You know what forget it give me everything on the menu
Welcome to the drive thru
Welcome to the drive thru

When you come and take a ride thru the drive thru
