

# Electric Love Child

## Steelheart

People say she's from another time, got a neon heart, got an X-ray mind  
Oh, a spiritual attraction  
Two black eyes painted on her face, just one look'll lay your soul to waste  
Oh, a ritual reaction  
Let my dreams run away, tell me baby, tell me baby that you're gonna stay  
Touch my body, crush my soul, love  
Sweet Electric Love Child, Sweet Electric Love Child  
Little girl wanna stay so high, reach down and touch the sky  
Oh sunshine again  
Aw my sugar gonna shoot the moon  
Dancin' in an old cartoon on the windowpane  
Trip the lights, drift away  
Tell me baby, tell me tell me what you wanna say - what d'you wanna say?  
Touch my body, crush my soul, oh baby, I'm in love love love love...  
Sweet Electric Love Child, Sweet Electric Love Child  
(Solo)  
Sweet Electric Love Child, Sweet Electric Love Child  
Oh honey, child, oh sing it, huh  
Sing it baby, oh child, yeah baby, oh, oh my my my my...
