

Electronic Apology

Mcclain Sisters

"Go"Go, goooo, goooo, goooo, go, go [x2]

Everywhere I go I hear the echo of a roar that keeps rising,
On the horizon, yeah, walking down the street, I feel the energy the world is demanding, the spaceship is
landing.Now there's no going back, back, back, back, back, back

No, there's no going back, back, back, back, back[Chorus:]

I don't see red lights, I just see "Go", I don't do stop signs, I don't hear "No"
Jump and don't look down, that's how you fly, there's no turning back now, it's win or you die...

Don't be scared just

Go [x16]

Don't think about it

Go [x16][Chyna:]

Everyone I know feels like the planets spinning faster and faster.
Straight for disaster, no, shining through the pressure, 'cause the way we deal with it will define us, pressure
makes diamonds.Now there's no going back, back, back, back, back, back

No, there's no going back, back, back, back, back[Chorus:]

I don't see red lights, I just see "Go", I don't do stop signs, I don't hear "No"
Jump and don't look down, that's how you fly, there's no turning back now, it's win or you die...

Don't be scared just

Go [x16]

Don't think about it

Go [x16]I feel it in the air tonight, I'm seeing the light... in the dark ignited
And no one's stopping me now, I'm living my dream, and you're all invited![Chorus:]

I don't see red lights, I just see "Go", I don't do stop signs, I don't hear "No"
Jump and don't look down, that's how you fly, there's no turning back now, it's win or you die...

Don't be scared just

Go [x16]

Don't think about it

Go [x16]Go where you go [x4]

Go, go, go, go, go, go, Go, go, go [x2]
