

Send Me Away

Kensington

You won't let it, you won't take it
You brew us into radium lie
I can't hide it, I can't fake it
I lost the way to hide it all Two sided, you still amaze me
I say hi to your maniac side
We won't let it, we won't take it
We lost the way to hide it all We lost the way to hide it
We lost the way to hide it
I'll be gone
Before they, before they
I'll be hopeful
Before they send me away
Before they send me away You're going at it, you want to tame me?
Then hold back on the hate in your eyes
You won't find it, you will crave it
You lost the way to hide it all We lost the way to hide it
We lost the way to hide it
I'll be gone
Before they, before they
I'll be hopeful
Before they send me away
We all are falling, are falling down
Be hopeful, until they send us away
We lost the way to hide it
We lost the way to hide it all
We lost the way to hide it
We lost the way to hide it
