Bless the Children of the World (Faust Demo)

Randy Newman

Sometimes you know I think that I will surely go insane
Got suicide and murder, runnin' in and out my brain
I dream of love, I dream of hate, I dream of death and pain
But no matter how I try, the dream remains the same, the sameAll the little piggies up against the wall
All the little piggies 'gainst the wall
('Gainst the wall)
One little piggie catch a bullet and he falls
Now there's one less piggie 'gainst the wall
('Gainst the wall)Next little piggie gets a bullet in the eye
(Bullet in the eye)
Last little piggie falls to his knees and cries
'Cause he's blown away, blown away, blown awayBless the children of the world
Give us all a chance to grow and live
Give us all you have to give
Bless the children of the worldBless the children of the world
We're the ones who'll have to carry on
Even though all hope is gone
Bless the children of the worldAll we need is understanding
A sign to show us that you care
It isn't love that we're demanding
Just be thereBless the children of the world
All we want is just to live our life
All we ask is to be free, let it be
Bless the children of the worldPlease bless us, bless the children
Bless us, bless the children of the world
