

So Good

CoCo Lee

Let me get that , uh, uh, uh, uh
Yeah, that's it, you feel that?
I know you feel that
Let's rideBig daddy close the door
What are you waiting for?
I'm crawling on the fours
Come join me on the floorI want this rug to burn
You're greedy, it's my turn
You've got a lot to learn
'Cause I'm on this job to workHush now, whose is it?
Don't talk, just hit it
I need a little more than a minute
I wanna pass out with you in itDon't stop, baby, take it
Deeper, till you break it
Open, 'cause I need it
Harder, harder, harder, harderI feel your flow, the vibe is so sexual
Got me feeling like letting go
Think I'm gonna ride you all night long
'Cause this feel so, so, so good
So, so, so good
Oh, I know you feel that, yeah, uhLay back and just relax
Don't mind the candle wax
With nails upon your back
I'll do it just like thatLust sitting on your face
Tongue kiss my inner place
And as I start to shake
A sensual escapeHush now, whose is it?
Don't talk, just hit it
I need a little more than a minute
I wanna pass out with you in itDon't stop, baby, take it
Deeper, till you break it
Open, 'cause I need it
Harder, harder, harder, harderI feel your flow, the vibe is so sexual
Got me feeling like letting go
Think I'm gonna ride you all night long
Cause this feel so, so, so, good
So, so, so goodI feel your flow, the vibe is so sexual
Got me feeling like letting go
Think I'm gonna ride you all night long

Cause this feel so, so, so, good
So, so, so good, I feel your flow Give me some of that, whose is it?
Just hit it till you break it
'Cause I need it
Yeah, 'cause I need it I feel your flow, the vibe is so sexual
Got me feeling like letting go
Think I'm gonna ride you all night long
Cause this feel so, so, so, good
So, so, so good I feel your flow, the vibe is so sexual
Got me feeling like letting go
Think I'm gonna ride you all night long
Cause this feel so, so, so, good
So, so, so good
