

# Instant Crush (feat. Neal Antone)

[JFMee](#)

From the time I've laid my eyes on you, my world would never be the same. I know my words may seem surprising too, see only love is here to blame. I had an instant crush on you, I've never felt the same. I had an instant crush on you, my life you've changed.  
All I asked for is the chance to show you how I feel.  
All I asked for is the chance to show you how I feel.  
I had an instant crush on you, I've never felt the same. I had an instant crush on you, my life you've changed.
