Sleep Deprivation

Smile Empty Soul

Paranoid
Peering through the smoke
I see it's all in my head
Hear the noise
Nothing registers
In there it's only pretend
With every little thing I see
And petty little memory
I'm pullin' out a thousand weeds
So back off now!
'Cause it's already over
I don't want to be sober
When I'm so stressed out
I'm walking a razor with my head in a hazy cloud
Take a breath
Quit looking down!
Complicate
With the best of them
I spin myself a new web
Medicate
Lack of oxygen
Make clear the words that were said
With every little thing I see
And petty little memory
I'm pullin' out a thousand weeds
So back off now!
'Cause it's already over
I don't want to be sober
When I'm so stressed out
I'm walking a razor with my head in a haze so
Back off now!
'Cause it's already over
I don't want to be sober
When I'm so stressed out
I'm walking a razor with my head in a hazy cloud
Take a breath
Quit looking down!
So back off
'Cause it's already over

I don't want to be sober
When I'm so stressed out
Been walkin' a razor with my head in haze
So back off now!
'Cause it's already over
I don't want to be sober
When I'm so stressed out
Been walkin' a razor with my head in a haze so
Back off now!
'Cause it's already over
I don't want to be sober
When I'm so stressed out
Been walkin' a razor with my head in a hazy cloud
Take a breath
Quit looking down!
