

Something I Should Know

Great Big Sea

I'm leaving you tomorrow, I can see,
this how it's got to be?

In the morning must I go,
So let's take a little time, say what's on your mind
Is there something I should know?

I thought we went through all this yesterday
You said you were OK, you just had to take it slow
I'm tired of these little games you play, are you here to stay?
Is there something I should know?

Chorus:

Is there something I should know? (x 3)
I thought about everything we've seen, it wasn't just a dream
How did we get so low?
To leave it all behind would be obscene
Where's your self-esteem? Is there something I should know?

Chorus

Keep on talking, you know I've got all night
But don't keep telling me, that everything's all right...
I'm not all right! I'M NOT ALRIGHT! I'm leaving you tomorrow, I can see,

This is how it's got to be,
in the morning I must go...
So let's take a little time, say what's on your mind
Is there something I should know?

Chorus
