# Let's Celebrate

## Imran Khan

Everybody, are you ready to hit the floor?
People all over get ready to hit the floor, yeah
I gotta brand new thing and I'm taking you out for more
Now feel the vibration, my body is aching to move
So if you think it's cool, come on and do it too
Let's have a real good time
Come everybody, let's party tonight
Come everybody, let's party tonight
Let's celebrate, we just can't wait
Things can only get better
Now we got the motion, get into the groove with me, yeah
You know it feels so good and baby, that's all that we need
The whole world is shaking, the rhythm is making it move
Oh yeah, so if you think it's cool, I'll take you right on through
Let's have a real good time
Come everybody, let's party tonight
Come everybody, let's party tonight
Let's celebrate, we just can't wait
Things can only get better
Party tonight
Come everybody, let's party tonight
Let's celebrate, we just can't wait
Things can only get better
So if you think it's cool, have a real good time
Hey
