Us

Tom Rosenthal

You said it was about the weather
You said it was mostly the fuss
You said it was about the nevers
But I think it was about us.You said it was a combination
Of factors found and lost
You saw it in the constellations
But I think it was about usAnd it's gone before it's gone
It's lost before it's lost
And you didn't see it coming 'cause no one ever does.
And it's gone before it's gone
It's lost before it's lost and
I don't know who killed the buzz buzz buzz buzz buzzYou said it was about the old times
You said it was about the rush
You said it was the crazy headlines
But I think it was about usAnd it's gone before it's gone
It's lost before it's lost
And you didn't see it coming 'cause no one ever does.
And it's gone before it's gone
It's lost before it's lost and
I don't know who killed the buzz buzz buzz buzz buzzBlah blah blah words words words
Sentiments we've heard heard heard
Blah blah blah war war war
Endings we have seen beforeBlah blah blah words words words
Sentiments we've heard heard heard
Blah blah blah war war war
Endings we have seen beforeAnd it's gone before it's gone
It's lost before it's lost
And you didn't see it coming 'cause no one ever does.
And it's gone before it's gone
It's lost before it's lost and
I don't know who killed the buzz buzz buzz buzz buzzYou blamed it on the late arrivals
You said it was about the end of the trust
You said it was the love rivals
But I think it was about usAnd it's gone before it's gone
It's lost before it's lost
And you didn't see it coming 'cause no one ever does.
And it's gone before it's gone
It's lost before it's lost and
I don't know who killed the buzz buzz buzz buzz buzzYou said it was a case of symbols

Where the minus beats the plus
You said we were just lonely people
But I think it was about us
