

China Sunrise

Alpha Rev

It's the way that you look
At me when I'm steppin out
Wanna change who I am
But you won't let me be
So afraid,
So alone
Creative and amused
With this life
It's not enough
It's not enough The sun, it runs straight into you
The sun, it runs straight into you These moments will not end
All the things we could have been The sun, it runs straight into you
The sun, it runs straight in
It runs straight in You missed your chance to find another way
You lost you're love just cause you hesitate
And now I wait for love to come again
You thought that you were all you believed in The sun, it runs straight into you
The sun, it runs straight in
Straight in
Straight in
Straight in to you
