

I Went Under The Blood

Heaven's Mountain Band

No one saw the tears, as they ran down my face, or that old empty feeling that needed something in its place I
didn't know it at the time but God knew what it was this old sinner needed saving and put under the blood

Chorus

I got down on my knees and went under the blood There was just no other way that I could get to God, I can't
get over just how precious is my saviours blood, It got all over me when I got under the blood

They tried to take it from the bible, they tried to take it from my home, but there is no redemption without the
saviours blood, and there is no other fountain for a dying soul, That can take a filthy sinner, and wash him white
as snow

Chorus

I got down on my knees and went under the blood There was just no other way that I could get to God, I can't
get over just how precious is my saviours blood, It got all over me when I got under the blood
