

Bruxellisation

The Electric Soft Parade

That could've been me
I don't know how
The door was open
But I couldn't go And now the evening's here
You look so sad
But nothing's changed since then
And time is on my side
But if you lie
I'll always be behind That could've been me
I don't know how
The door was open
But I couldn't go And now the evening's here
You look so sad
But nothing's changed since then
And time is on my side
But if you lie
I'll always be behind
