Killed for Less

Sense Field

Now I can move you without pushing you
Now I can test you without failing you
Now I can hit you without hurting you
Now I can carry you and not drag you downDrag you down, carry me across the burning bridge
Somehow I'll help you to carry the weight of the world
Carry you, carry youCarrying you, carries me
Finding a power that's greater than
Heaven help me, said heaven help me
I've killed them, killed themKilled for less, killed for less
Killed for less, killNow I can love you without scaring you
Now I can kiss you without killing you
Now I can take you without losing you
Now I can hold you and not keep you downDrag you down, drag you down with me
Carry you, carry you, carry you, carry youHeaven help me said, heaven help me
I've killed them, killed them
Killed for less, killed for less
