

Vagabond

Wolfmother

Oh girl, I don't know all the reasons why
I found the answer looking in your eye
I go out walking all day long
Take away this lonely man, soon he will be gone
'Cause I'll tell you everything about living free
Yes, I can see you girl, can you see me? You don't need to know what I do all day
It's as much as I know watch it waste away
'Cause I'll tell you everything about living free
Yes, I can see you girl, can you see me? Go and see the sorcerer and look into the ball
You may find the answer written on the wall
The left one was a dancer
Can you see the answer, oh? Put her on a mansion on top of a hill
Please don't make her do the things against her will
I found something special, I don't know why
Looking into her pretty little eye
'Cause I'll tell you everything about being free
