

Altered State

Sepultura

Fear in my subconscious
Terror invades my speech
Faith in my own words
No one knows the nameless Warm winds and burning tears
Spirits outside bodies
Endless repression by majority
A master without command
Strange new dimension disturbing my brain
Censored ideas, counterfeit answers Shining blast, no preception
Altered state, no reaction
Shining blast
Altered state Slow talk, fast thoughts
Ancient scriptures
Controversial lines
Knowledge changes Running in the wrong direction
Crossing with blind eyes
I'm closer to myself
Sanity can't invade
