

# If a Nerd and a Cupcake Had a Baby

## Rocket Me Nowhere

She is black and I am blue  
Bruises on my heart for you  
All my drawings on her wall  
Never seems to mind at all  
Keeps her secrets in a jar  
reads them when were in her car  
She is smart and I am not  
she built me a make-out robot  
Some girls are pepper she is salt  
favorite element cobalt  
Every line of poetry  
she writes with pen all over me  
She sings all of our favorite songs  
even though the words are wrong  
and even when she goes to sleep  
her mind has got a hold of me

If a nerd and a cupcake had a baby it would be just like my lady.  
Cute and sweet and a little crazy all the geeks they want my baby.

she tells me I'm like chemistry  
with laws that don't apply to me  
If she throws paper I throw rock  
and let her think that she is hot  
When she cries I take her tears  
an mail them far away from here  
she always smiles when I'm caught  
getting to know make-out robot.

If a nerd and a cupcake had a baby it would be just like my lady.  
Cute and sweet and a little crazy all the geeks they want my baby.

hey girl we'll be okay  
and anyway  
we're way to young for  
problems to come our way  
so take the day  
and geek it out more

If a nerd and a cupcake had a baby it would be just like my lady.  
Sweet and cute and little crazy all the geeks they want my baby.
