Sitting by the Window

Moby Grape

I was sitting by the window
Watchin' for the rain
The reflection of your picture
Against my window paneBut just the same
I'm playin' my game
And I guess you're playin' it too
Go ahead and play it on throughThe times we had together
It was sunny every day
Now it's cloudy every morning
And it stays that way all dayBut just the same
I'm playin' my game
And I guess you're playin' it too
Go ahead and play it on throughI was sitting by the window
Watchin' for the rain
I thought you were beside me
Just like before the rainBut just the same
I'm playin' my game
And I guess you're playin' it too
Go ahead and play it on through
