

# Young and In Love

Jordin Sparks

I didn't ask your opinion, whatcha talkin' 'bout?  
Too quick to jump to conclusions, 'cause we're hangin' out  
There ain't no wishes, ain't no fuss  
When it's just you and me, you and me  
What makes you think that you can know?  
What's gonna stick, what's gonna blow?  
So get 'em boy  
Let them pull at the seams, don't they know what it means  
To be young and in love like that?  
Who are they to decide if it's wrong, if it's right?  
To be young and in love like that  
Like that, like that, like that, like that  
To be young and in love  
If people offerin' answers, sounds like breakin' glass  
I can't remember the questions, whatever asked  
It's a free road you came down  
But you don't bother me, bother me  
One of those days when we're old  
I'll stop and say I told you so  
So get 'em boy  
Let them pull at the seams, don't they know what it means  
To be young and in love like that?  
Who are they to decide, if it's wrong, if it's right  
To be young and in love like that?  
Like that, like that, like that, like that  
To be young and in love like that  
Like that, like that, like that, like that  
To be young and in love  
It don't matter what they say, too late to walk away  
'Cause I need him, much too strong  
I've waited for so long to feel all the things that I feel  
So I gotta get that boy  
Let them pull at the seams, don't they know what it means  
To be young and in love like that?  
Who are they to decide, if it's wrong, if it's right  
To be young and in love like that?  
Like that, like that, like that, like that  
To be young and in love like that  
Like that, like that, like that, like that  
To be young and in love
