Neglected

Edgewater

I feel sometimes
That she's not missed at all
I feel sometimes
That she's been left behind
I feel sometimes
That she's neglected
I feel this time
That she will rise
Why has her life been dismissed?
Somebody tell me
Why has her life been dismissed?
Cold December day, I walk in well there, there she lay
Her skin was bare, the tears rolled down her face
They're tears of fear and death takes her place
And I am scared of
Why has her life been dismissed?
Somebody tell me
Why has her life been dismissed?

She needs more time
She needs more time
She needs more time
She needs more time
Today is not a good day, she left the life she lived
Today is not a good day, she left the life she's given
Today is not a good day, she left the life she lived
Today, today, today
Today is not a good day, she left the life she lived
Today is not a good day, she left the life she's given
Today is not a good day, she left the life she lived
Today
Why has her life been dismissed?
Somebody tell me
Why has her life been dismissed?
Why walk away? Why walk away?
Why walk away? Why walk away?
Why walk away? Why walk away?
