

# Loveline

## Lush

You are the one, in your concrete arms I adore you  
Dirty and dear, block out the sun  
In your twists and turns I invade  
You show me no fear We blow around like tiny leaves in a big storm  
Finding there's nothing left to breathe or to keep warm  
You ebb and flow and your rhythm beats my head  
Leave me alone while you swallow up the dead You are the one, you cradle me and kill, caressing my face  
Leave me undone, you suffocate and have me, this is the place  
Every door conceals a dream and a nightmare  
Nothing is ever really pure in the stale air And when it's dark everything becomes more clear  
Lie in the park when I want to have you near You are the one, in your concrete arms I adore you  
Dusty and dear, block out the sun  
In your twists and turns I invade  
You show me no fear Left it unsung, I shall leave but I'll return  
Poison my lungs, my blood is full of lead  
Things unsaid, my love for you still burns
