Lovelife

Lush

You are the one, in your concrete arms I adore you

Dirty and dear, block out the sun

In your twists and turns I invade

You show me no fearWe blow around like tiny leaves in a big storm

Finding there's nothing left to breathe or to keep warm

You ebb and flow and your rhythm beats my head

Leave me alone while you swallow up the deadYou are the one, you cradle me and kill, caressing my face

Leave me undone, you suffocate and have me, this is the place

Every door conceals a dream and a nightmare

Nothing is ever really pure in the stale airAnd when it's dark everything becomes more clear

Lie in the park when I want to have you nearYou are the one, in your concrete arms I adore you

Dusty and dear, block out the sun
In your twists and turns I invade
You show me no fearLeft it unsung, I shall leave but I'll return
Poison my lungs, my blood is full of lead
Things unsaid, my love for you still burns
