Scale It Back

DJ Shadow

"I swear I saw blue light
My feet followed it outside
And I thought I heard someone say
Fly far away
And when you reach up the sky is thereThis clueless weather know
We swing the waves, and let it go
Until I heard someone say
Over the rise and beyond
Oh, where you reach and knocked over starsLike light I came from pocket finesse
Every moment I see with eye closed
Take me to places where we can start
Like light I came from pocket finesse, everyNothing can steal this treasure from us, babe
I'm still in luck-- now
Fighting the soundsTake chances and come closer to me babe
I'm fallin' out -- now..."
