

New Day

Anouk

We come out when the world's at rest
It's all good when we lay down on the grass
Me and my friends, we celebrate
The time of our lives
Making love under the trees, lay
In my arms, yeah, it's all free
Skinny dipping in the river flow
No, we're not ready to go home
Oh no
Oh baby come on
Sun goes down
The water feels fine
Oh baby come on
Give it all I'm gonna make you mine
Oh baby come on
Sun goes down
The water feels fine
Oh baby come on
Give it all and let me make you mine
It's okay when we make a mess
Ain't got time for any stress
No escape is where we belong
We're making shadows in the hot hot summer sun
Perfect day, let's take a chance
Watch your feet, how they can dance
Love and learn, yeah it's a new day
It's way too short to let it waste away
Oh baby come on
Sun goes down
The water feels fine
Oh baby come on
Give it all I'm gonna make you mine
Oh baby come on
Sun goes down
The water feels fine
Oh baby come on
Give it all and let me make you mine
Love, learn, it's a new day
Everyday is a new day

Oh baby come on
Sun goes down
The water feels fine
Oh baby come on
Give it all I'm gonna make you mine
Oh baby come on
Sun goes down
The water feels fine
Oh baby come on
Give it all and let me make you mine
