Let Me Fall For You

David Cook

I was wrong I was wrong
Thinking my heart could be a poem
I was strong I was strong
When I had a reason to hold on
Let me fall let me fall for you
Let me fall for you
Don't look down don't look down
But now it's too late to take it slow
Turn around Turn around
Give me a reason to let go
Let me fall let me fall for you
Let me fall for you
It's over it's over
I'm hanging by a thread
Those are words you never said
I'm going under so tell me what to do
I've got nothing to hold onto
Let me fall for you
All the time All the time
You are the one that got me through
Like a sign like a sign
You were the voice that knew the truth

Let me fall let me fall for you
Let me fall for you
(Let me fall like a plane out of the sky
Let me crash let me burn my heart out
Let me learn to fly)
It's over it's over
I'm hanging by a thread
Those are words you never said
I'm going under so tell me what to do
I've got nothing to hold onto
Let me fall for you (Let me fall)
Let me fall
(Let me fall like a plane out of the sky
Let me crash let me burn my heart out
Let me learn to fly)
It's over it's over

I'm hanging by a thread
With all the words you never said
I'm going under so tell me what to do
I've got nothing to hold onto
Let me fall for you (Let me fall)
Let me fall like a plane out of the sky
Let me crash let me burn my heart out
Let me learn to fly
