

One Lonely Night

REO Speedwagon

You and your baby had some words today
Till not another word was left to say
I see that grin, boy
Maybe you think you'll win, boy
Until the sun goes down and once again, boy One lonely night, one lonely night
That's all it takes to completely break you They say it's darkest right before the dawn
But oh those darkest hours can be so long
You're feelin' strong, boy
Tellin' yourself she's wrong, boy
But how much longer can this night go on, boy? One lonely night, one lonely night
That's all it takes to completely break you One lonely night, one lonely night
That's all it takes to completely break you Ooh, she's such a good find
Have you gone and lost your mind?
You should know she's one of a kind Ooh, she's such a good find
Have you gone and lost your mind?
You should know she's one of a kind Just lonely night, one lonely night
That's all it takes to completely break you
