The Champion

Inspectah Deck

He's been taking it easily
And then suddenly the moment changed
Suddenly, the moment changed, watch it andHe has put together a flurry and put the champion away
But no one has ever been able to do that
And he's tryin' ta survive to the final bell, what a fightYou never will conquer the champion, ooh, ooh
You never will conquer the championI stream machine gun funk, trunk slayer
Major Payne game hunter, summer time shine
Mind controller, hold the crowd still hill top dwellerSell the garden out, House Gang chain
Cuban Link blink, lose shoes, you can never wear
Stare hard, God rise above, love hate, make your choice
Voice like Luther, future Hall of FamerCame a long way, stay fly, I, soldier, Ayatollah
Airbender sent a chill, drill sarge, hard bottom
Got 'em hooked, took my time, grind heavyReady for the world, girl please
He's too experienced
Been a don, Avalon size, wise to it
Do it like, Nike type gritty, city boy, 'noid neverBetter recognize, eyes of the tiger
The fire breather, heed the truth, son
The championYou never will conquer the champion, ooh, ooh
You never will conquer the championThis is Ruben rap, glam glitz, strips buzzing
Cousin got the spot a blaze, J's crisp, this time styling
Island of Stat, Black Hawk, walk with me, fifty cal flow
Blow the roof, you learn, burn unit
True it's popping, watch 'em work,Purp' smoking, toke and rapping
Catch a tidal wave, slave to the rhythm, give 'em hell
Bell ringer, Springer Show, throw a chair, air it out
Doubting Deck, check your pulse, folks, witness historyRewriting the script, switch it on 'em, taught 'em how
Now's a new day, say what? Clutch shooter
Through the storm, calm bomb arm, dangerous, spit game
Flame thrower, Cobra Commander, pandemonium, it's only himSwim with the sharks, spark like night breeze
See plan the camera flash, cash only homey
And not jammed till the band done, the championYou never will conquer the champion, ooh, ooh
You never will conquer the champion
