

# Another Reason to Go

## Vetiver

No good job, no good town  
No rules planned at dawn  
Why be lost when you could be found  
By another reason to go City lights, so bright they blind  
Like a [Incomprehensible]  
[Incomprehensible] till the day you find  
There another reason to go Open eyes mean closing doors  
Wonder what they're waiting for  
I was waitin' but I ain't no more  
I found another reason to go Look hard headed like me  
Don't give up easily  
When I look back all I see  
Is another reason to go Well, come near from afar  
No matter where you are  
There's a life surrounds you And if you stay [Incomprehensible] let it shine  
Keep watch, soon you'll find  
You're placed in your good time  
Not another reason to go
