I'm The One

Van Halen

We came here to entertain you
Leaving here we aggravate you
Don't you know it means the same to me
Honey I'm the one, the one you love
Come on baby, show your love
Hey, give it to me
I see a glow that fills this room
I see it rolling off of you
And now your message from above
I'm tellin' you
Show, come on and show your love
Show your love, show
Show, show, show your love babe
Ah, yeah, show your, show it
Look at all these little kids
Takin' care of the music biz
Do their business take good care of me
Honey I'm the one, the one you love
Come on baby show your love
Hey, give it to me
I see a glow that fills this room
I see it rolling off of you
And now your message from above
I'm tellin' you
Show show your love babe
Show your love
Show, show, show your love babe
Ah, yeah, show your, show me
Alright
Show your love
Oh, come on and show me
Show your love
Better show, better show your love now
Show me your love
Show your love, yeah
