

The Upperhand

Apey & The Pea

Ride me storm, another way to be the last.
And time youâ€™ve lost, what you give above is what you get.

Get high, loose some time. Give it up so my feet won't climb
Get drunk, get it all out, give a fuck about your the rules online
Get lost, get it all down, give a zip of that "green old hound"
Get down, give it all ssh! You don't need your "God" by now!

Get high, loose some time. Give a rest, and sleep for now
Get dull, get some more. Live a lie to lose all four
Get done, do it all night. Thats alright cause you're doing all right
Get high, get me more. You don't need your "God" for sure

You don't need. Your "God". You don't need.
"That's what I'm talkin' about, same old."
Ride me storm, another way to be the last
and time youâ€™ve lost..."what you give above is what you get"
Ride me storm, another way to be the last
and time youâ€™ve lost..."what you give above is what you get"
