The Dog Said Screw

Fielfraz

How many ways do I have to try?
How many battles do I have to fight?
How many times do I have to die?
Now I'm not dead and I want you alive

Oh I won't go to the show tonight
I don't wanna let that kid out of my sight
"Is little skinny boy fed?" was all she said
I asked her:
"Who put that stuff in your head?"
'cause I know you like it from behindâ€¦

The animal said:
"Come and give me your head"
animal sex by the side of her bed
"I came from the wild to animate you"
The girl said no, but the dog said screw
and I know you like it from behindâ€¦

The girl said no, but the dog said screw
the girl said no, but the dog said screw
the girl said no, but the dog said screw
"I'll screw you when you're dead" she said

The I dropped down in a parachute dive
jumped into her flask like a suicide fly
crawl on my back, suck my inwards dry
I know the desert ends somewhere
deep inside

The girl said no, but the dog said screw
the girl said no, but the dog said screw
the girl said no, but the dog said screw
"I'll screw you when you're dead" she said
