Chelsea

Mest

I thought you were the one
But I was wrong 'cause you've already left
And I hope that you miss me tonight Chelsea
And I hope that you miss me tonight ChelseaA year ago we met
And I never would've guessed
That you'd mean so much to me
But those brown eyes drove me crazyAnd at the time everything was goin' wrong
But you made everything seem alright
So now I wonder where you are
On this cold November nightI thought you were the one
But I was wrong 'cause you already left
And I hope that you miss me tonight Chelsea
And I hope that you miss me tonight ChelseaI had to leave that night
'Cause I knew something wasn't right
We held each other as the night came to an end
But all I could think about was your boyfriendIf he only knew the things that you've done and said
And that you were lyin' here with me in this bed
Because I live so far away
Is why you chose him that day?I thought you were the one
But I was wrong 'cause you already left
And I hope that you miss me tonight Chelsea
And I hope that you miss me tonight ChelseaTonight I don't know where you are
But I know where you should be
So here I am all alone
When you should be with me, Chelsea
