Falling

Asia

Another meltdown
Another change of state
Some other big town
Where he can make his breakShe said, "Oh no, I like it this way"
And he said, "Oh no, does this mean I can stay?"I feel like I'm just caving in
I really do
And what is to be must beHelp me, now I'm falling
Give me early warning
Help me, I'm in danger over youSo how you feelin'?
You know it's not too late
Don't hold your head down
You must recuperateI feel like I'm just caving in
I really do
And what is to be must beHelp me, now I'm falling
Give me early warning
Help me, I'm in danger over youHelp me, now I'm falling
Give me early warning
Help me, I'm in danger over you
Over you, over you, over you
Over you, over you, over you
