She Does

Collective Soul

Every single word, every single sign
Every single moment captures her
Her motions well defined, her motions well defined
Yeah, she's well defined
Who could light the sky
With no sun, no moon, no stars above?
Who could give me cause
To speak, to wish or believe in love?
I'll tell you, my baby, she does
Way beyond my heart, way beyond the mind
Way beyond the measures one could ask for
For her love tonight and for her love tonight
For her love tonight
Who could light the sky
With no sun, no moon, no stars above?
Who could give me cause
To speak, to wish or believe in love?
Who could light the sky
With no sun, no moon, no stars above?
Who could give me cause
To speak, to wish or believe in love?
I'll tell you, my baby, she does
She does it for the fun, yeah, she does it purposely
She does it for the one, yeah, she does it just for me
Yeah, she does, hey, hey
Who could light the sky
With no sun, no moon, no stars above?
Who could give me cause
To speak, to wish or believe in love?
Who could light the sky
With no sun, no moon, no stars above?
Who could give me cause
To speak, to wish or believe in love?
I'll tell you, my baby, she does
Yeah, yeah, my baby, she does
Yeah, yeah, my baby, she does
Yeah, yeah, my baby, she does
