

Here Is My Heart

Lionel Richie

Here is my heart you can take it There's a time in your life for believing
That impossible dream in your heart
When you find in one magical moment
The one you search for from the start On a night like tonight when you're holding me
I can see in your eyes, it's you I've dreamed of Here is my heart, you can take it
Love so strong, can't be wrong
Here is my heart, please don't break it
Come what may, here I'll stay
Here is my heart only for you If I gave you the keys of a kingdom
If I dressed you in diamonds and pearls
It would never compare to the feeling
We have together right now On a night like tonight, you're everything
For once in my life, it feels like Heaven Here is my heart, you can take it
Love so strong, can't be wrong
Here is my heart, please don't break it
Come what may, here I'll stay
Here is my heart, only for you
Here is my heart, now and forever yours Making love under the stars
Paradise is where we are
Living it up, we'll never stop
Dancing together
Round and round and round, we go
Feel the rhythm in your soul
Nothing is going to stop us
When we're dancing together
All night long forever Here is my heart, you can take it
Here is my heart, please don't break it
Here is my heart, you can take it
Love so strong, can't be wrong
Here is my heart, please don't break it
Come what may, here I'll stay Here is my heart
Here is my heart
Love so strong, can't be wrong
(Come on and take it)
Here is my heart, please don't break it
(Come on and take it)
Come what may, here I'll stay
Please don't break it
Don't break it, girl

Ohh, here is my heart
Here is my heart
Now and forever yours
