## **Come Clean**

## **Eisley**

Mister, I don't believe in you Mister, I don't believe in you Just come clean all around meWith your head bleeds And your nosebleeds too I don't see that there's a truth In the way you're talking to meBut let's give it a try, let's keep it for truth Why do you wanna fall to pieces? Let's give it a try, let's keep it for truth And come clean all around me And come clean all around me, ohMister, I don't believe in you Mister, I don't believe in you With the way you're talking to me Oh, it's so soothingAnd let's give it a try, let's keep it for truth Why do you wanna fall to pieces? Let's give it a try, let's keep it for truth And come clean all around meAnd come clean all around me Would you come clean all around me? Just come clean all around me, ohAnd listen to me, you pull me apart And I know it wasn't you 'Cause you were not there And why do you feel sorry? Let's give it a try, let's keep it for truth Why do you wanna fall to pieces? Let's give it a try, let's keep it for truth And come clean all around meAnd come clean all around me Would you come clean all around me? Just come clean all around me, ohCome clean all around me Come clean all around me

Lyrics provided by <a href="https://damnlyrics.com/">https://damnlyrics.com/</a>

Would you come clean all around me?

Just come clean all around me, oh
